◆ Business Summary

- Sales had steady growth due mainly to keep high renewal sales rate for the mainstream CAE software and order receipt of large-scale projects from focused customers and from new segment activities.
- Since budget execution by Electrical Industry - one of our principal customer segment - has been frozen or postponed, it resulted receipt of forecasted new orders were fell short than expectation level
- Declining of “Operating income”, “Ordinary income”, “Quarterly net income” compare with the same period of the previous was due mainly for the following reason;
 - Under the circumstances, the impact of “The Great East Japan Earthquake” given to our business performance, our budget execution was in a careful manner in FY2011 thus significant expenditure reduction was carried out, however it was resumed to normal business operation in FY2012.
 - Pursuing “the new midterm business plan for the period between fiscal 2012 and 2014” has increased expenses in the current fiscal year.
